**For all emergencies contact Dispatch at 403.261.0595
and 9-1-1**

FIRE ALARM SYSTEM

There are two types of Fire Alarms on Stampede Park (depending on the building):

1. Continuous ringing bell and when activated - automatic evacuation
2. 2-stage Alarm System.
Stage 1: Bells will ring in short bursts with a long pause between each ring
Stage 2: Continuous ring and automatic evacuation

Note: in the 2-stage alarm, the bells will gradually progress through the different stages if:

1. *The alarm warning has not been acknowledged by a Stampede employee (at the enunciator panel), and/or*
2. *More than one sensor on the grid has been tripped*

At stage 1, you will either be directed by Calgary Stampede personnel or will default to the second stage. If no direction is given, evacuate to the nearest muster point away from the direction of the fire.

EVACUATION

What should you do in an emergency?

- Leave the area quickly but in an orderly manner, following the Calgary Stampede's emergency evacuation plan.
- Listen carefully for any Stampede employee instructions.
- Crawl low, under smoke to breathe cleaner air if there is a fire; test doors for heat before opening them by placing the back of your hand against the door so you do not burn your palm and fingers; do not open a hot door, but find another exit route; keep "fire doors" closed to slow the spread of smoke and fire.
- Avoid using elevators when evacuating a burning building.
- Report to designated muster point (meeting place).

Do not re-enter the building until directed by authorities.
